

PD/B (1) 1 Brown Matravers Cherokee. Stood alone for males in today's entry, thus automatically becoming Best Male. Puppy male with good topline. Good coat so far. Stands on good legs and over a decent amount of ground. Would prefer more development in angulations front and rear but he is young. Okay width in the quarters and moved with some drive and reasonable extension in front. BPIB & BDIB

OD/B (2,1) 1 Morris & Evans Bareve By Kind Permission Taf Balanced bitch, upstanding, presented here today in excellent condition with super musculature. I liked her overall make and shape and she was extremely pleasant on the move, coming, going and on the around. Good top line and tail set. Pleasing angulation front and rear with plenty substance without coarseness. Liked her for type and style. B.B. & B.O.B

VD/B (1) 1 Harries Myrna Loy. 9 year girl who had really good coat texture. Good width on her quarters. Decent shoulder line with plenty length of upper arm. Rather soft in top line today as she was carrying too much weight, which also affected her movement. Short in foreface but good length of back skull. B.V.I.B.

Mrs D Stewart Ritchie
